Rusty Welsh, Deputy Director
Columbia County Emergency Management Team
PO Box 498
Evans, GA 30809

Dear Mr. Welsh,

On behalf of McCormick County School District, I would like to extend our warmest appreciation to you for joining hands in our effort to provide extended learning opportunities as we educate and prepare our students for tomorrow's global opportunities. Our business partnership, now in its second year, has brought further growth in career development to our students, faculty and staff. A partnership of this kind is hard to find in the business world where budget cuts and busy schedules are imminent. This is why we believe it is fortunate for us to have found a great business partner, such as you, who has the interest of our students' future success at heart.

Our students, faculty and administration have nothing but words of praise and satisfaction for the service you have given the past two years. As we face another year, we look forward to continue to reap greater success. We hope that our partnership will last many more years.

Sincerely,

Sherry Moore
Certified Career Development Facilitator
